Sustainable Waste Management Solutions

GOVERNMENT PROJECT SOURCING

MSW MANAGEMENT

WET WASTE TO COMPOST

ABOUT US

TDS Prime Association Pvt Ltd works in project sourcing for Government initiatives, with a focus on waste management under the Swachh Bharat Mission. We are engaged in converting wet waste into usable organic output for agricultural application, supporting a cleaner environment and a sustainable, circular approach to waste.

From on-ground collection and mechanized segregation to processing wet waste into compost for agricultural use, we support municipal and government bodies at every stage of the waste management cycle.

OUR SERVICES

Government Project Sourcing

Sourcing and executing waste management projects under Swachh Bharat and allied municipal schemes.

Collection & Segregation

On-site collection of municipal solid waste with mechanized segregation of wet and dry waste streams.

Mechanized Processing

Trommel screening and conveyor-based processing systems to handle waste at scale.

Wet Waste to Compost

Converting segregated wet waste into organic compost for agricultural use.

On-site processing equipment

Site inspection & waste survey

OUR PROCESS

1

Collection

Systematic collection of municipal solid waste from designated sites.

2

Segregation

Mechanized separation of wet and dry waste using trommel screens and conveyor lines.

3

Processing

Wet waste is processed at scale using dedicated equipment on site.

4

Composting

Processed wet waste is converted into organic compost.

5

Agricultural Use

Finished compost is supplied for use in agricultural applications.

WHY CHOOSE US

- ✓ Aligned with the Swachh Bharat Mission and government waste management schemes
- ✓ Experienced on-ground field team
- ✓ Mechanized processing equipment for scale and efficiency
- ✓ End-to-end support for government project sourcing
- ✓ Sustainable, circular approach — wet waste to agricultural compost
